

CONTENTS

Demonstrating the Standards for Mathematical Practice in <i>Discovering Algebra</i>	viii
A Note to Students from the Authors	x

CHAPTER 0

Fractions and Fractals	1
0.1 Recursive Fractions	2
Investigation: Connect the Dots	2
0.2 Using Exponents	9
Investigation: How Many?	9
0.3 Exponents and Fractions	14
Investigation: How Long Is This Fractal?	14
0.4 Operations with Signed Numbers	21
Investigation: A Strange Attraction	21
0.5 Activity Day: Out of Chaos	28
Activity: A Chaotic Pattern?	28
Chapter 0 Review	30
Take Another Look	32
Assessing What You've Learned	33

CHAPTER 1

Data Exploration	34
Refreshing Your Skills: Number-Line Graphs	35
1.1 Bar Graphs and Dot Plots	38
Investigation: Picturing Pulse Rates	39
1.2 Summarizing Data with Measures of Center	45
Investigation: Making "Cents" of the Center	45
1.3 Graphical and Numeric Measures of Spread	51
Investigation: Pennies in a Box	52
1.4 Histograms and Stem-and-Leaf Plots	60
Investigation: Hand Spans	61
1.5 Relative Frequency Graphs	68
Investigation: Circle Graphs and Bar Graphs	68
1.6 Activity Day: Exploring a Conjecture	76
Activity: The Conjecture	76
1.7 Two-Variable Data	78
Investigation: Let It Roll!	78
1.8 Lines and Data	85
Investigation: Guesstimating	85
Chapter 1 Review	90
Take Another Look	95
Assessing What You've Learned	96

CHAPTER 2

Proportional Reasoning and Variation 97

Refreshing Your Skills: Factors and Fractions.....	98
2.1 Proportions	101
Investigation: Multiply and Conquer	102
2.2 Proportions with Percents.....	108
Investigation: Fish in the Lake	108
2.3 Conversion Factors and Unit Rates.....	113
Investigation: Converting Centimeters to Inches	113
2.4 Direct Variation	119
Investigation: Ship Canals	119
2.5 Inverse Variation	127
Investigation: Text Boxes	127
Sharpening Your Skills: More on Proportions.....	135
2.6 Activity Day: Variation with a Bicycle	137
Activity: The Wheels Go Round and Round	137
2.7 Evaluating Expressions.....	140
Investigation: Number Tricks	141
2.8 Undoing Operations.....	149
Investigation: Just Undo It!	149
Chapter 2 Review	156
Take Another Look	160
Assessing What You've Learned	161

CHAPTER 3

Linear Equations 162

Refreshing Your Skills: Number Relationships and Estimation.....	163
3.1 Recursively Defined Sequences.....	166
Investigation: Recursive Toothpick Patterns	167
3.2 Linear Plots.....	173
Investigation: On the Road Again	174
3.3 Time-Distance Relationships	180
Investigation: Walk the Line	180
3.4 Linear Equations and the Intercept Form	186
Investigation: Working Out with Equations	186
3.5 Linear Equations and Rate of Change	196
Investigation: Wind Chill	198
3.6 Solving Equations Using the Balancing Method	204
Investigation: Balancing Pennies	204
Sharpening Your Skills: Evaluating Formulas.....	213
3.7 A Formula for Slope	216
Investigation: Points and Slope	216
3.8 Precision and Accuracy	225
Investigation: Tying Knots	225
Sharpening Your Skills: Another Look at Solving Equations.....	231
Chapter 3 Review	234
Take Another Look	238
Assessing What You've Learned	240

CHAPTER 4

Functions and Linear Modeling 241

Refreshing Your Skills: Algebraic Properties of Equality	242
4.1 Secret Codes	245
Investigation: TFDSFU DPEFT	245
4.2 Functions and Graphs	253
Investigation: Testing for Functions	254
4.3 Graphs of Real-World Situations	260
Investigation: Matching Up	261
4.4 Slope-Intercept Form of a Linear Equation	268
Investigation: Crosstown Traffic	269
4.5 Point-Slope Form of a Linear Equation	277
Investigation: The Point-Slope Form of Linear Equations	278
4.6 Equivalent Algebraic Equations	283
Investigation: Equivalent Equations	284
Sharpening Your Skills: Different Linear Forms	291
4.7 Using Linear Equations	293
Investigation: Life Expectancy	293
4.8 A Standard Linear Model	298
Investigation: Bucket Brigade	298
4.9 Correlation and Causation	306
Investigation: Did It Really Cause That?	306
4.10 Activity Day: Data Collection and Modeling	313
Activity: The Toyland Bungee Jump	313
Chapter 4 Review	315
Take Another Look	319
Assessing What You've Learned	320

CHAPTER 5

Systems of Equations and Inequalities 321

Refreshing Your Skills: Standard Form of a Line	322
5.1 Solving Systems of Equations	325
Investigation: Where Will They Meet?	325
5.2 Parallel and Perpendicular Lines	333
Investigation: Slopes	333
5.3 Solving Systems of Equations Using Substitution	339
Investigation: All Tied Up	340
5.4 Solving Systems of Equations Using Elimination	347
Investigation: Paper Clips and Pennies	348
Sharpening Your Skills: More on Solving Systems	353
5.5 Inequalities in One Variable	355
Investigation: Toe the Line	356
5.6 Graphing Inequalities in Two Variables	362
Investigation: Graphing Inequalities	362
5.7 Systems of Inequalities	371
Investigation: A "Typical" Envelope	371
Chapter 5 Review	379
Take Another Look	381
Assessing What You've Learned	382

CHAPTER 6

Exponents and Exponential Models 383

Refreshing Your Skills: Percents and Decimals	384
6.1 Multiplicative Recursion	387
Investigation: Bugs, Bugs, Everywhere Bugs	387
6.2 Exponential Equations	395
Investigation: Growth of the Koch Curve	395
6.3 Multiplication and Exponents	403
Investigation: Moving Ahead	404
6.4 Scientific Notation for Large Numbers	409
Investigation: A Scientific Quandary	409
6.5 Looking Back with Exponents	415
Investigation: The Division Property of Exponents	415
6.6 Zero and Negative Exponents	421
Investigation: More Exponents	421
Sharpening Your Skills: Practice with Properties of Exponents	428
6.7 Fitting Exponential Models to Data	431
Investigation: Radioactive Decay	431
6.8 Activity Day: Decreasing Exponential Models and Half-Life	438
Activity: Bouncing and Swinging	438
Chapter 6 Review	440
Take Another Look	442
Assessing What You've Learned	443

CHAPTER 7

Functions and Transformations 444

Refreshing Your Skills: Translating Points	445
7.1 Function Notation	448
Investigation: A Graphic Message	449
Sharpening Your Skills: Creating New Functions	455
7.2 Piecewise Functions and Absolute Value	457
Investigation: Valuable Pieces	458
7.3 Squares, Squaring, and Parabolas	464
Investigation: Graphing a Parabola	464
7.4 Determining Rate of Change	469
Investigation: Rate of Change	471
7.5 Translating Graphs	475
Investigation: Translations of Functions	475
7.6 Reflecting Points and Graphs	484
Investigation: Flipping Graphs	484
7.7 Stretching and Shrinking Graphs	494
Investigation: Changing the Shape of a Graph	495
7.8 Activity Day: Using Transformations to Model Data	504
Activity: Roll, Walk, or Sum	504
7.9 Introduction to Rational Functions	507
Investigation: I'm Trying to Be Rational	507

CHAPTER 8

Sharpening Your Skills: Rational Expressions	516
Chapter 7 Review	518
Take Another Look	523
Assessing What You've Learned	524
Quadratic Functions	525
Refreshing Your Skills: Factoring and Multiplying.....	526
8.1 Quadratic Models	529
Investigation: Rocket Science	530
8.2 Finding the Roots and the Vertex.....	536
Investigation: Making the Most of It	536
8.3 From Vertex to General Form	542
Investigation: Sneaky Squares	543
8.4 Factored Form.....	549
Investigation: Getting to the Root of the Matter	549
8.5 Activity Day: Projectile Motion	557
Activity: Jump or Roll	557
Sharpening Your Skills: Factoring or Expanding to Write Equivalent Expressions.....	559
8.6 Completing the Square.....	562
Investigation: Searching for Solutions	562
8.7 The Quadratic Formula	569
Investigation: Deriving the Quadratic Formula	569
Sharpening Your Skills: Solving Quadratic Equations	576
8.8 Operations with Polynomials.....	579
Investigation: Rooting for Factors	581
Chapter 8 Review	588
Take Another Look	591
Assessing What You've Learned	591
Selected Hints and Answers.....	592
Glossary	625
Index.....	638
Photo Credits	649
Appendix: Probability.....	651
